

I would like to comment, that the local radio stations in the Central Washington area, (Yakima County, Benton-Franklin County, Walla-Walla- county) have a very strong commitment to the local market. They donate a tremendous amount of time to us. As a non-profit hospital, we rely on funds that are raised through many national organizations and events. The local Clear Channel stations continually supports our needs as well as those of many other organizations. Just this weekend, Clear Channel radio helped us to raise over \$102,000.00 for the children's fund at our hospital by donating and producing a Children's Miracle Network radiothon. They have always been very supportive of our partnerships with Children's Miracle Network, March of Dimes, local YMCA and YWCA just to name a few. We could not do what we do without them. Please take into consideration that even though some stations around the country might not be pulling their weight, the majority of the stations in this country are doing a wonderful job. Please do not put more regulation on them. It only stands to hurt everyone. Micro-management never works and it's expensive. Thank you.
